

# HANDGUN RED DOT INSTRUCTOR COURSE

**MCOLES Registered & 302 Approved**

## **WHEN**

**June 18<sup>th</sup> - 20<sup>th</sup>  
0800 – 1800 Daily**

## **Where**

**The Lab Training Center**

**6275 Lake Pleasant Rd South, Osseo Mi 49266**

**The use of red dot optic equipped handguns is steadily gaining national favor within the law enforcement sector. As a direct result, impactful and specific instruction is a priority for professionals. Course attendees will be exposed to contemporary techniques to teach and employ when integrating established marksmanship principles with electronic sighting mechanisms.**

**Training modules within this course will focus upon the following: handgun red dot history; technology advancements; relevance for LE personnel; red dot zeroing; marksmanship; red dot advantages; disadvantages and more. This comprehensive thirty-hour course will ready participants to not only instruct - but to professionally prepare, develop and conduct relevant firearms training. In order to complete this course, each attendee must pass a written exam and three separate live fire qualifications on the final training day.**

## **TUITION**

**\$600 includes daily lunch  
\$55 nightly accommodations  
Made payable to The Lab  
Training Center**
